## PREFATORY NOTE.

The schedules for medicine were prepared originally by Mr. J. Christian Bay in 1904 under the supervision of Mr. Martel, then Chief Classifier. The scheme has, however, undergone extensive revision in connection with the recataloging of the medical works in this library. Since 1905 the classification of medicine has been in charge of the undersigned, who prepared the schedules for the press in 1910. The first edition having been exhausted and the demand for copies steadily continuing, a second edition has now been prepared, incorporating manuscript additions and revisions from 1910 to date.

CLARENCE W. PERLEY,  
*Chief of Classification Division.*

HERBERT PUTNAM,  
*Librarian of Congress,*  
*Washington, D. C., December, 1920.*
